

Animal-House Guidelines

All the students of faculty members dealing with animal experiments, are hereby requested to follow the following rules for the smooth running of our animal-house facility.

1. All animal experiments should be approved by institutional research ethics committee (IREC).
2. In case of **modifications in experiments** (that were not approved), approval should be taken from IREC before commencement of that particular experiment.
3. **Breeding** of animals is not allowed unless IREC permission has been taken.
4. A **collaborative research** can only be conducted after providing a proof of collaboration and IREC approvals to the animal-house committee.
5. **Out-sourcing** of animals is strictly prohibited. In case out-sourcing is unavoidable then prior approval from animal house committee is mandatory.
6. Animal-house will not facilitate those animals that are out-sourced without approval from the committee.
7. Researcher will be responsible for daily check-up of his/her animals. Animal-house will not be responsible for unattended animals.
8. Cages should be properly tagged/labelled
9. Inventory of the individual researcher's animal-stock should be maintained regularly in record-register available in the animal-house.

Best Regards,

Dr. Mahtab Ahmad Khan
